ANDREI TCIBIN

Senior Backend Engineer

with 7 years of experience on Bioinformatics, EdTech and Digital Entertaiment projects with expertise in cloud technologies (AWS, GCP, Azure), Kubernetes and Elasticsearch. Mostly skilled in Kotlin, Java and Python. Experienced in designing, developing and maintaining scalable microservices in request-response and event-driven architectures.

EXPERIENCE

2024 – present	**Senior Backend Engineer, Podimo**	**Vilnius, Lithuania, EU**

Design, develop and maintain scalable GraphQL/REST microservices in GCP environment.
```
Kotlin/TypeScript / GraphQL/REST / GCP / Kubernetes / PubSub / Digital Entertainment
```

2022 – 2024	**Senior Software Engineer, EPAM Systems**	**Vilnius, Lithuania, EU**

Developed scalable services using Java/Python in AWS/GCP environments which are deployed as part of Kubernetes cluster. My contributions include REST API services, monitoring/billing data aggregation/processing workflows, Elasticsearch optimizations and cloud autoscaling solutions.
```
Java/Python / REST / AWS/GCP / Kubernetes / ELK / Bioinformatics/Open Source
```

2017 – 2022	**Software Engineer, EPAM Systems**	**Saint Petersburg**

Contributed to multiple services running in AWS/GCP/Azure environments. Mostly I contributed to cloud storage integrations (AWS S3, Google Cloud Storage, Azure blob storage).
```
Java/Python / REST / AWS/GCP/Azure / Kubernetes / ELK / Bioinformatics/Open Source
```

EDUCATION

2014 – 2020	**Bachelor/Master's Degrees in Computer Science, ITMO University**	**Saint Petersburg**

Studied Computer Science and Software Engineering in ITMO University. My thesis project was an educational platform for institutions and universities which automate programming submissions testing, code quality assurance and plagiarism detection.
```
Kotlin / Computer Science / Software Engineering
```

ACHIEVEMENTS

2023   **AWS Certified Developer - Associate, AWS**
```
AWS / Certification
```

2018   **Hackaton Awardee, BioHack**
```
Python/R / Bioinformatics/Data Science
```

2017   **Hackaton Finalist, VK Hackaton**
```
Java / Chat Bot
```
